Executive Summary

Many small business owners think of their employees as family, and they believe in taking care of their employees in order to retain a happy and loyal workforce and to attract top talent. They also know it's important for their employees to be able to balance their work and family responsibilities. New scientific polling shows the majority of Louisiana small businesses offer benefits like paid leave and provide family-friendly policies for their employees.

A scientific opinion poll conducted for Small Business Majority by Greenberg Quinlan Rosner Research found many Louisiana small employers offer family-friendly benefits to their employees to accommodate their responsibilities at home, including two-thirds (66%) of small businesses that allow their employees to take time off from work to attend their children's school activities, such as parent-teacher conferences. Nearly 3 in 10 (29%) provide flexible work schedules or opportunities to work from home to accommodate family responsibilities, and nearly 1 in 6 small employers (15%) offer childcare benefits, such as subsidized childcare or onsite childcare facilities. Nearly 1 in 4 (23%) provide information about and ways to connect with public benefits, such as the Supplemental Nutrition Assistance Program (SNAP) or free and reduced-priced school meals for their children.

Additionally, the majority of Louisiana small businesses (53%) offer paid vacation to employees, and more than 1 in 4 small businesses (27%) offer health insurance benefits, either through an employer-sponsored plan or by paying a portion of employees' own health insurance. Nearly 4 in 10 (38%) small business owners offer on-the-job training or financial assistance for education and training outside the job, such as tuition reimbursement. Small business owners offer additional financial incentives to employees, including retirement benefits (18%) and financial counseling or access to financial institutions, products and services (20%).

Lastly, poll respondents were politically diverse: 39% identified as Republican or independent-lean Republican, 34% as Democrat or independent-lean Democrat and 19% as pure independent.

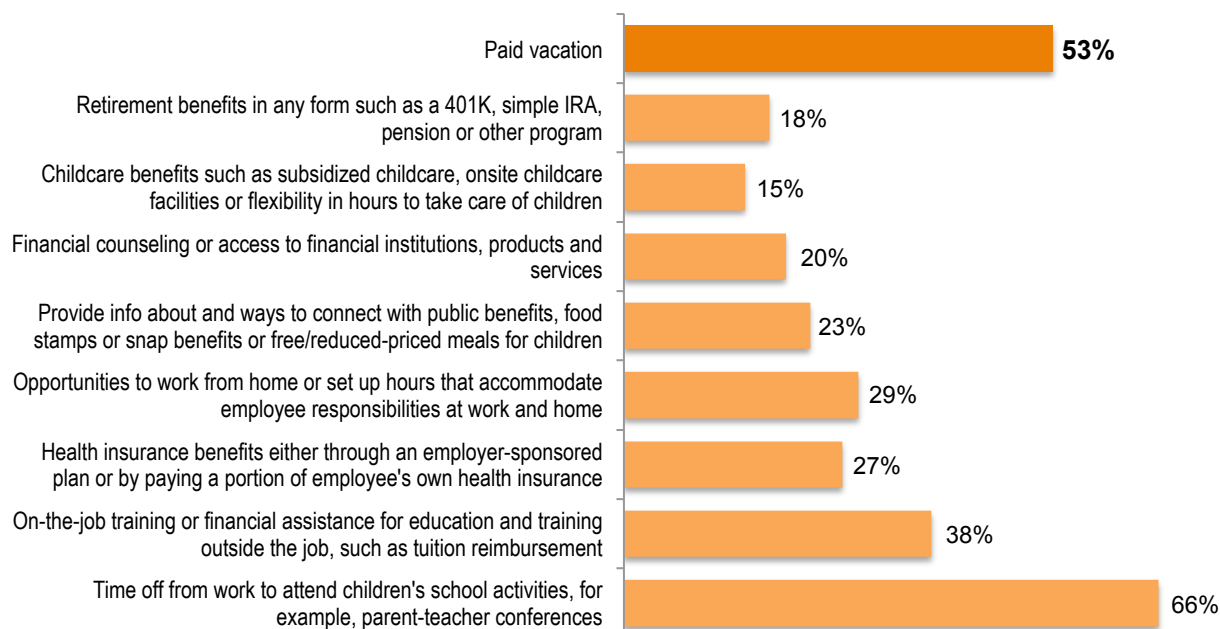

Methodology

This poll reflects a telephone survey of 500 small business owners from around the country with an oversample of 106 small businesses in Louisiana. The poll was conducted by Greenberg Quinlan Rosner Research for Small Business Majority with a margin of error of +/-9.52% for the Louisiana oversample. The survey was conducted from January 15 through February 3, 2015.

Main Findings

- Louisiana small employers offer family-friendly benefits to their employees to accommodate their responsibilities at home:** Two-thirds (66%) of small businesses allow their employees to take time off from work to attend their children’s school activities, such as parent-teacher conferences. Nearly 3 in 10 (29%) provide flexible work schedules or opportunities to work from home, and nearly 1 in 6 small employers offer childcare benefits, such as subsidized childcare or onsite childcare facilities. Nearly 1 in 4 (23%) provide information about and ways to connect with public benefits, such as SNAP or free and reduced-priced school meals for their children.
- Majority of Louisiana small businesses offer paid leave to their employees:** Fifty-three percent of small business owners provide paid vacation to their employees.
- More than 1 in 4 small businesses offer health insurance benefits to employees:** More than one in four (27%) Louisiana small employers offer health insurance benefits to employees, either through an employer-sponsored plan or by paying a portion of employees’ own health insurance.
- Many small business owners offer a variety of financial incentives, such as tuition reimbursement, retirement benefits and more:** Nearly 4 in 10 (38%) small business owners in Louisiana offer on-the-job training or financial assistance for education and training outside the job, such as tuition reimbursement. Small business owners offer additional financial incentives to employees, including retirement benefits (18%) and financial counseling or access to financial institutions, products and services (20%).
- Respondents were politically diverse:** 39% identified as Republican or independent-lean Republican, 34% as Democrat or independent-lean Democrat and 19% as pure independent.
